

HR-Partner

Human resource services for smaller companies that do not have their own HR department!

Many smaller companies do not have their own HR or personnel department, and therefore lack the necessary resources to handle the ongoing need for development of, and follow-up with, the staff.

Target group

We offer HR-partner services to companies with limited internal HR resources that from time to time may need assistance from a specialist in the area of HR.

Form of collaboration

Based on our many years of work and experience within both the private and public sectors, we offer several kinds of HR services and adapt them to match your specific needs, such as:

- Ad hoc assistance from time to time
- Voucher system
- Contracts for longer periods of collaboration

The more extensive the collaboration, the greater the economic benefits that can be reaped from the various services.
